Teachers' Day Message

Dr. A P J Abdul Kalam has said :

“A good teacher, with meticulous planning, prepares himself for teaching and the student for acquisition of knowledge.”

In the changing scenario, the role of a teacher has transformed completely. He has become a facilitator enabling the students to acquire knowledge. A teacher of modern age is equipping the students with the required information in order to obtain the truth. Teachers must be perpetual seekers of intellectual integrity and universal compassion. A teacher is being so outstanding, understanding and caring and prove that learning can be joyful and pleasant experience. A teacher himself remains a learner all through his life. “It is the supreme art of the teacher to awaken joy in creative expression and knowledge.

Teachers have pushed themselves to learn new and innovative ways to reach students and raise achievement. They work hard to support students at all levels and provide supportive yet rigorous instruction for all learners. Modern day teacher is techno - savvy and progressive.

Teachers arouse the inherent curiosity of tender minds and show them the path to quench their thirst of knowledge. The responsibility of the teachers is to prepare the students to proceed on the real journey of attainment and achievement. Teachers are blessed indeed as they have undertaken this upstanding and righteous mission. In the words of Edward G. Bulwer-Lytton

“The best teacher is the one who suggests rather than dogmatizes, and inspires his listener with the wish to teach himself.”

Teachers' Day is such an occasion and opportunity to pay tribute and gratitude to the teachers for their continuous, selfless and precious efforts in shaping the future. Teachers are the assets to enrich all the quality education system in the country and process it continuously without getting tired. Let your efforts be continued to contribute towards making our nation greater and stronger.

With Best Wishes

Bengaluru
04.09.2018.
